ABOUT US

Fortinge is a Publishing Technology Company that aims to be known for innovation and development in the industry and develops products in line with this goal.

We develop products within the framework of efficiency and accessibility by analyzing the needs of different customer segmentations. In this context, while we produce solutions for large TV Studios that use the most advanced infrastructures, we also market suitable products for smaller studios and individuals who broadcast by scaling these solutions.

In addition to our hardware solutions, we develop and present our software products that will work in the most compatible way with these products to our customers.

We continue to work with high motivation with our team members who are experts in their fields, our customers, and dealers in more than 60 countries to achieve our goals of continuous innovation and development, complete customer satisfaction, and is a leading company in the sector.

1 Operating Conditions

The MIA-X/XL Mobile Teleprompter is easy to use, with tool-less assembly and light-weight design, allowing you the freedom to perform your speech anywhere you want.

2 Safety Precautions

Care must be taken during disassembly, unpacking, and transportation of the device. These operations are critical to ensure both the protection of the product and the safety of the user. It is strongly recommended to follow the safety precautions below:

Disassembly must be performed carefully and using appropriate methods. Improper disassembly may damage the internal components or pose safety risks. When unpacking, sharp tools must be used cautiously to avoid damaging the device's surface or sensitive components.

During transportation, the device should be kept in the recommended position and protected against falls, impacts, or sudden shocks.

As the device contains glass components, which are prone to breakage, extreme caution must be exercised during transportation. Protective packaging materials should be used, and strong impacts must be avoided.
